BOOSTER Precision Components

Our vision is to be internationally recognized as the premier tier-two supplier of turbocharger components. Being the leader in quality and process technology.

Our mission is to have a global presence and customer orientation, always aiming for an irreproachable record of delivery in new product launch and series production.

We believe that profitable growth, environmental care, and social responsibility are not mutually exclusive, they are essential elements of our stakeholder based on business understanding.

MANAGEMENT POLICY:

Satisfaction is our goal, create and maintain a quality management system permitting continuous improvement, this is the key factor for the company's long-term success and lies at the very heart of our concerns.

BOOSTER commitment to satisfaction is based on the following areas:

Customer focus

We are oriented to toward serving its client's needs. We firm's attention to what customers want or need. We are oriented to potential and actual Customer too.

Process approach

Our managers use a process approach, they control the processes that make up their organization, the interactions between these processes, and the inputs and outputs that tie these processes together as one common system.

Target oriented

Establishing and maintaining a culture of "Getting it Right, First Time." Is our highest goal.

Employee engagement

BOOSTER provides an enriching and encouraging environment for professional growth. This leads to the best connection to our company and brand and results in extraordinary effort and positive financial results.

Involvement suppliers

We involved our key suppliers in the internal operation, particularly with respect to the new product, process, concurrent engineering and manufacturability techniques. This activity helps us to reduce cost, improve quality and reduce new process development time.

Continuously improvement and sustainable development

The management at BOOSTER undertakes to develop mutual communication, to measure and evaluate the efficiency of processes and to initiate preventive and corrective measures. We commit to continuously improve the effectiveness of the quality of products, processes and integrated management system, which requires the active co-operation of all employees at all levels, as a base for ensuring employment competitiveness and sustainable development.

Compliance with environmental rules, legal, health, and safety regulations

The management at BOOSTER undertakes to create the best working conditions to achieve company goals in compliance with the occupational safety principles and support the personal development of employees in their job satisfaction, motivation and in the protection of their health with respect and care for the environment. The management at BOOSTER commits to respect known risk, undertake the responsibility to deepening knowledge of all employees.

We will take preventive measures against all foreseeable risks surrounding our business and conduct risk management so that in the event of an emergency, we will be able to protect the safety of our employees and environment to maintain our business continuity.

Local and Global Stakeholders

The BOOSTER commits to comply with legal requirements, with respect to the culture and laws of each country and territory, and in conducting all corporate activities comply at all times with relevant laws as well as internal regulations, including this policy. We will comply with laws and regulations regarding import and export control of the country or region where we operate. We will prohibit the offering of bribes and maintain a sound and transparent relationship with all stakeholders.

STRATEGIC ROADMAP

The BOOSTER Strategic Roadmap guides us through these turbulent times. The glue is our purpose and values, and our culture. The roadmap says what we want to be as a company, what we want to leverage as competitive advantages, where we want to grow and how we will do that efficiently and responsibly. It drives internal alignment behind our goals.
